### THOMAS STONE NATIONAL HISTORIC SITE

#### POLICY FOR NON-TRADITIONAL USES

##### INTRODUCTION

Request for use of Thomas Stone National Historic Site grounds or facilities for events or activities that are not related to the purpose of the park will be reviewed and approved or disapproved based upon the following policy.

##### POLICY

The Service encourages park uses that draw meaning from their association with and direct relationship to, park resources. Conversely, the Service discourages those uses not consistent with the preservation and /or protection of park resources, visitors, and/or values. Request for uses considered "non-traditional" may be provided for in certain areas of the park under careful regulation and control as outlined below.

Certain outdoor recreational activities not necessarily dependent upon park resources for their realization, and/or not constituting traditional or customary park uses, may be permitted when they do not:

- interfere with normal park usage:
- constitute a consumptive form of use
- compromise the historic or natural scene; or
- present a danger to public welfare and safety, including safety of the participants.
- oppose the purposes for which the park was established

The time and place for such activities shall be controlled by permit to avoid:

- infringement upon the enjoyment and rights of other park visitors;
- traffic congestion;
- injury to non-participants and damage to property;
- unwarranted risk to participants due to inadequate equipment, lack of qualifications, weather, or other factors.

The use of park lands or facilities for organized athletic events or competitive recreational events characterized as public spectator attractions is not permitted. Pageants, anniversaries, and other observances are permitted when the observance contributes to visitor understanding of the significance of the park; and when the event can be staged without undue impact on the park's resources. Ample opportunities for hiking, bird watching, etc., are provided and encouraged.

The following guidelines are provided to facilitate smooth operation of the park and allow permitted events to be held. Please read the guidelines carefully in order to fully understand the park's policy and to avoid any misunderstanding which may delay or interfere with your proposed event. Please remember that additional conditions may be added to individual request when received and considered.

All applications for special uses of park property, facilities, etc., must be received at least 30 days prior to the event to allow time for administrative review, permit preparation, and scheduling. Failure to provide necessary review time will be considered grounds for disallowing a requested activity.
