Rio de Janeiro, August 30, 1952

Dear Professor.

Since 1951 I have been working with Caldas in the Catalase Restoration phenomenon (Latarjet-Caldas), and now we need a new sample of E.coli K12, K12-S and the virus, in order to continue our studies, as our source apparently lost its properties.

I would appreciate very much if you could send us that sample.

I am intending to write you soon about my fellowship because I need first to consult Dr. Carlos Chagas, my Chief, about it.

Sincerely yours,

C. A. Elias

NOTE- The sample must be addressed with the advise:
