Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin

Dear Joshua:

We would be delighted to have you and Esther spend Sunday the 29th with us. I shall be in the East on the 27th and 28th, but hope to get back (if flying conditions are OK) the night of the 28th; otherwise, on the 29th. I am planning also to drive to Cincinnati on Monday morning early and am taking my wife and Geoffrey Beale (of Edinburgh) along with me. We will take our own car. If we don't finish up what we have to say to each other before leaving Cincinnati, you could drive back here and stay over with us again. We'd be very glad to have you either or both times, at your convenience and pleasure.

Would you care to tell my group informally about your recent work? We meet on Friday nights usually, but could make it any evening that suits you if you'd be willing to do it. We meet in the kitchen of my lab—or in my home--and like to be free to ask questions and make comments ad lib. I doubt whether we'd contribute much to you, but we'd get a lot from you. You means you and Esther. I'd like you both to talk. There is plenty of time,--we meet at 8 PM and--with a break for refreshments--can keep going till 10:30 or 11.

Also, if you'd like to wander around our lab and see what's going on, talking to each of the people, they'd be thrilled to have you.

Let me know your wishes and I'll make arrangements to correspond.

Cordially,

Tracy

T. M. Sonneborn

TMS:jb

The best date for Seminar for us would be Thursday evening, March 6th on the way back from Cincinnati; but we can make it another time if it suits you better.
