Dear Josh:

Many thanks for letting me see the enclosed paper in advance of publication. The method you describe has a classic simplicity; and the results obtained with it seem perfectly clear-cut.

For a number of reasons I have not been able to push our resistance studies as fast as I would have liked. I am, however, now writing an introductory paper, and when it is ready, I would welcome your critical comments and suggestions.

With kind regards,

Cordially,

Harry Eagle, Chief  
Experimental Therapeutics  
National Microbiological Institute
