

January 6, 1952

Dear Dr. Burkholder:

The enclosed notice was received with a forwarded parcel. Its implications are rather alarming-- I hope incorrect. All of our known correspondents are, of course, acquainted with our present address, but we are bound to receive inquiries based on our publications from Yale OBL. These have been quite infrequent, but not, I hope any serious burden. I would appreciate it very much if your staff would continue the courtesy. I will guarantee postage where necessary, and can provide more labels if convenient.

With best wishes for the new year,

Sincerely,

Joshua Lederberg
