

Classified/Declassified STI Issues and Activities

- **Background**

- **OSTI has been central repository for DOE and predecessor agencies since 1947 for classified and limited agency-funded research and development documents.**
- **Formalized in 1986 in DOE 1430.3, Policy for the Dissemination of and Access to Dept. Unclassified STI**

Current STI Policy

- **DOE O 241.1 & DOE G 241.1-1 include classified, declassified, and limited**
- **Requirements: DOE programs shall ensure that STI is reviewed for sensitivity (including non-proliferation, national security, export control); and that appropriate announcement and availability restrictions are applied consistent with statutory and/or other Departmental requirements.**
- **All DOE elements shall make STI broadly available in useful and acceptable forms, including announcing such STI results to the central coordinating office.**
- **CRD: Make useful STI available to OSTI ... whether unclassified, sensitive, or classified.**

OSTI Products/Services

- **Controlled Access File: unclassified, controlled STI**
- **Classified Energy Online (CLEO): announcement of classified STI and approved database access.**
- **Documents for approved recipients.**
- **Interagency exchange DOD and DTIC.**
- **Special services/products for HQ Programs (e.g., OpenNet and Applied Technology).**
- **Reengineering under way; secure, online full-text information is a primary goal.**
