SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius Commission was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCFICS was established to develop principles and guidelines for food import and export inspection and certification systems to facilitate trade through harmonization and to supply safe and quality foods to consumers. Included in the charge is application of measures by competent authorities to provide assurance that foods comply with essential requirements. The Committee is hosted by the government of Australia.

SUPPLEMENTARY INFORMATION:

Title: Specialty Sugar Import Certificates.

OMB Number: 0551-0025.

Expiration Date of Approval: March 31, 2008.

Type of Request: Extension of a currently approved information collection.

Abstract: The quota system established by Presidential Proclamation 4941 of May 5, 1982 prevented the importation of certain sugars used for specialized purposes which originated in countries which did not have quota allocations. Therefore, the regulation at 15 CFR part 2011 (Allocation of Tariff-Rate Quota on Imported Sugars, Syrups, and Molasses, Subpart B—Specialty Sugar) established terms and conditions under which certificates are issued permitting U.S. importers holding certificates to enter specialty sugars from specialty sugar source countries at the in-quota tariff rates under the sugar tariff-rate quota (TRQ). Nothing in this subpart affects the ability to enter specialty sugars at the over-quota tariff rate. Applicants for certificates for the import of specialty sugars must supply the information required by 15 CFR 2011.205 to be eligible to receive a specialty sugar certificate. The specific information required on an application must be collected from those who wish to participate in the program in order to grant specialty sugar certificates, ensure that imported specialty sugar does not disrupt the current domestic sugar program, and administer the issuance of the certificates effectively.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2 hours per response.

Respondents: Importers.

Estimated Number of Respondents: 30.

Estimated Number of Responses per Respondent: 1.

aspect of this collection of information. Comments on issues covered by the Paperwork Reduction Act are most useful to OMB if received within 30 days of publication of the Notice and Request for Comments, but should be submitted no later than 60 days from the date of this publication to be assured of consideration.
