Lewistown, MT----The Bureau of Land Management's Lewistown Field Office would like to advise recreationists that as of Friday, October 20, the camping facilities at the Kipp Recreation Area are full.

The Kipp Recreation Area is a BLM managed camping and recreation area adjacent to the Fred Robinson Bridge where Highway 191 crosses the Missouri River north of Roy, Montana.

The general big game season begins this Sunday and numerous hunters have made their way to the Breaks surrounding the Kipp Recreation Area to pursue elk and or deer. However, the recent rains and snow have made vehicle travel on the gumbo type roads and trails in this area almost impossible. As a result, numerous hunters are staying at Kipp to wait out the weather and the campground is absolutely full.
