

§ 679.62

subject to the inter-cooperative agreement must not exceed the aggregate contributions of each member vessel towards the overall groundfish sideboard amount as calculated by NMFS under §679.64(b) and as announced by the Regional Administrator.

(f) *Annual reporting requirement.* Any fishery cooperative governed by this section must submit preliminary and final annual written reports on fishing activity to the North Pacific Fishery Management Council, 605 West 4th Ave, Suite 306, Anchorage, AK 99501. The Council will make copies of each report available to the public upon request.

(1) *What are the submission deadlines?* You must submit the preliminary report by December 1 of each year. You must submit the final report by February 1 of the following year. Annual reports must be postmarked by the submission deadline or received by a private courier service by the submission deadline.

(2) *What information must be included?* The preliminary and final written reports must contain, at a minimum:

(i) The cooperative's allocated catch of pollock and sideboard species, and any sub-allocations of pollock and sideboard species made by the cooperative to individual vessels on a vessel-by-vessel basis;

(ii) The cooperative's actual retained and discarded catch of pollock, sideboard species, and PSC on an area-by-area and vessel-by-vessel basis;

(iii) A description of the method used by the cooperative to monitor fisheries in which cooperative vessels participated;

(iv) A description of any actions taken by the cooperative in response to any vessels that exceed their allowed catch and bycatch in pollock and all sideboard fisheries; and

(v) The total weight of pollock landed outside the State of Alaska on a vessel-by-vessel basis.

(3) *What is the required format?* You must submit at least one copy of each annual report ready for duplication on unbound single-sided 8.5- by 11-inch paper, or in an alternative format approved in advance by the Council.

(g) *Landing tax payment deadline.* You must pay any landing tax owed to the

50 CFR Ch. VI (10-1-06 Edition)

State of Alaska under section 210(f) of the AFA and paragraph (e)(1)(v) of this section before April 1 of the following year, or the last day of the month following the date of publication of statewide average prices by the Alaska State Department of Revenue, whichever is later. All members of the cooperative are prohibited from harvesting pollock in the BS subarea directed pollock fishery after the payment deadline if any member vessel has failed to pay all required landing taxes from any landings made outside the State of Alaska by the landing deadline. Members of the cooperative may resume directed fishing for pollock once all overdue landing taxes are paid.

[67 FR 79734, Dec. 30, 2002, as amended at 68 FR 6836, Feb. 11, 2003; 70 FR 9868, Mar. 1, 2005]

§ 679.62 Inshore sector cooperative allocation program.

(a) *How will inshore sector cooperative allocations be made?* An inshore catcher vessel cooperative that applies for and receives an AFA inshore cooperative fishing permit under §679.4(1)(6) will receive a sub-allocation of the annual BS subarea inshore sector directed fishing allowance. Each inshore cooperative's annual allocation amount(s) will be determined using the following procedure:

(1) *Determination of individual vessel catch histories.* The Regional Administrator will calculate an official AFA inshore cooperative catch history for every inshore-sector endorsed AFA catcher vessel according to the following steps:

(i) *Determination of annual landings.* For each year from 1995 through 1997 the Regional Administrator will determine each vessel's total non-CDQ inshore pollock landings from the Bering Sea Subarea and Aleutian Islands Subarea separately, except for the F/V PROVIDIAN (USCG documentation number 1062183).

(ii) *Determination of annual landings for the F/V PROVIDIAN.* For the F/V PROVIDIAN, pursuant to Public Law 106-562, the Regional Administrator will substitute the 1992 through 1994 total Bering Sea subarea and Aleutian Islands subarea pollock non-CDQ inshore landings made by the F/V OCEAN SPRAY (USCG documentation

Fishery Conservation and Management

§ 679.62

number 517100 for the purpose of determining annual cooperative quota share percentage.

(iii) *Offshore compensation.* If a catcher vessel made a total of 500 or more mt of landings of non-CDQ Bering Sea Subarea pollock or Aleutian Islands Subarea pollock to catcher/processors or offshore motherships other than the EXCELLENCE (USCG documentation number 967502); GOLDEN ALASKA (USCG documentation number 651041); or OCEAN PHOENIX (USCG documentation number 296779) over the 3-year period from 1995 through 1997, then all non-CDQ offshore pollock landings made by that vessel during from 1995 through 1997 will be added to the vessel's inshore catch history by year and subarea.

(iv) *Best two out of three years.* After steps (a)(1)(i) and (ii) of this section are completed, the 2 years with the highest landings will be selected for each subarea and added together to generate the vessel's official AFA inshore cooperative catch history for each subarea. A vessel's best 2 years may be different for the Bering Sea subarea and the Aleutian Islands Subarea.

(2) *Conversion of individual vessel catch histories to annual cooperative quota share percentages.* Each inshore pollock cooperative that applies for and receives an AFA inshore pollock cooperative fishing permit will receive an annual quota share percentage of pollock for the BS subarea that is equal to the sum of each member vessel's official AFA inshore cooperative catch history for the BS subarea divided by the sum of the official AFA inshore cooperative catch histories of all inshore-sector endorsed AFA catcher vessels. The cooperative's quota share percentage will be listed on the cooperative's AFA pollock cooperative permit.

(3) *Conversion of quota share percentage to TAC allocations.* (Effective April 1, 2005) Each inshore pollock cooperative that receives a quota share percentage for a fishing year will receive an annual allocation of Bering Sea and/or Aleutian Islands pollock that is equal to the cooperative's quota share percentage for that subarea multiplied by the annual inshore pollock allocation for that subarea. Each cooperative's annual pollock TAC allocation

may be published in the proposed and final BSAI harvest specifications notice.

(b) *What are the restrictions on fishing under a cooperative fishing permit?* A cooperative that receives a cooperative fishing permit under §679.4(1)(6) must comply with all of the fishing restrictions set out in this subpart. The owners and operators of all the member vessels that are named on an inshore cooperative fishing permit and the owners and operators of any vessels under contract to the cooperative under paragraph (c) of this section are jointly and severally responsible for compliance with all of the requirements of a cooperative fishing permit pursuant to §679.4(1)(6).

(1) *What vessels are eligible to fish under an inshore cooperative fishing permit?* Only catcher vessels listed on a cooperative's AFA inshore cooperative fishing permit or vessels under contract to the cooperative under paragraph (c) of this section are permitted to harvest any portion of an inshore cooperative's annual pollock allocation.

(2) *What harvests accrue against an inshore cooperative's annual pollock allocation?* The following catches will accrue against a cooperative's annual pollock allocation regardless of whether the pollock was retained or discarded:

(i) *Member vessels.* All pollock caught by a member vessel while engaged in directed fishing for pollock in the BS subarea unless the vessel is under contract to another cooperative and the pollock is assigned to another cooperative.

(ii) *Contract vessels.* All pollock contracted for harvest and caught by a vessel under contract to the cooperative under paragraph (c) of this section while the vessel was engaged in directed fishing for pollock in the BS subarea.

(3) *How must cooperative harvests be reported to NMFS?* Each inshore pollock cooperative must report its BS subarea pollock harvest to NMFS on a weekly basis according to the recordkeeping and reporting requirements set out at §679.5(o).

§ 679.63

50 CFR Ch. VI (10–1–06 Edition)

(c) *Contract fishing by non-member vessels.* A cooperative that wishes to contract with a non-member vessel to harvest a portion of the cooperative's annual pollock allocation must comply with the following procedures.

(1) *How does a cooperative contract with a non-member vessel?* A cooperative that wishes to contract with a non-member vessel must submit a completed contract fishing application to the Alaska Region, NMFS, in accordance with the contract fishing application instructions.

(2) *What information must be included on a contract fishing application?* The following information must be included on a contract fishing application:

(i) *Co-op name(s).* The names of the cooperative or cooperatives that wish to contract with a non-member vessel.

(ii) *Designated representative(s).* The names and signatures of the designated representatives for the cooperatives that wish to contract with a non-member vessel and the vessel's home cooperative.

(iii) *Vessel name.* The name and AFA permit number of the contracted vessel.

(iv) *Vessel owner.* The name and signature of the owner of the contracted vessel.

(v) *Harvest schedule.* A completed harvest schedule showing how all catch and any overages by the contracted vessel will be allocated between the contracting cooperative (or cooperatives) and the contract vessel's home cooperative. In the event that multiple cooperatives are jointly contracting with a non-member vessel, the harvest schedule must clearly specify how all catch and any overages will be allocated among the various cooperatives.

(3) *What vessels are eligible to conduct contract fishing on behalf of an inshore cooperative?* Only AFA catcher vessels with an inshore fishing endorsement that are members of an inshore cooperative may conduct contract fishing on behalf of another inshore cooperative.

(4) *Who must be informed?* A cooperative that has contracted with a non-member vessel to harvest a portion of its inshore pollock allocation must inform any AFA inshore processors to whom the vessel will deliver pollock while under contract to the coopera-

tive prior to the start of fishing under the contract.

(5) *How must contract fishing be reported to NMFS?* An AFA inshore processor that receives pollock harvested by a vessel under contract to a cooperative must report the delivery to NMFS on the electronic delivery report by using the co-op code for the contracting cooperative rather than the co-op code of the vessel's home cooperative.

[67 FR 79734, Dec. 30, 2002, as amended at 68 FR 6836, Feb. 11, 2003; 69 FR 64688, Nov. 8, 2004; 70 FR 9868, Mar. 1, 2005]

§ 679.63 Catch weighing requirements for vessels and processors.

(a) *What are the requirements for listed AFA catcher/processors and AFA motherships?*—(1) *Catch weighing.* All groundfish landed by listed AFA catcher/processors or received by AFA motherships must be weighed on a NMFS-certified scale and made available for sampling by a NMFS certified observer. The owner and operator of a listed AFA catcher/processor or an AFA mothership must ensure that the vessel is in compliance with the scale requirements described at § 679.28(b), that each groundfish haul is weighed separately, and that no sorting of catch takes place prior to weighing.

(2) *Observer sampling station.* The owner and operator of a listed AFA catcher/processor or AFA mothership must provide an observer sampling station as described at § 679.28(d) and must ensure that the vessel operator complies with the observer sampling station requirements described at § 679.28(d) at all times that the vessel harvests groundfish or receives deliveries of groundfish harvested in the BSAI or GOA.

(b) *What are the requirements for unlisted AFA catcher/processors?* The owner or operator of an unlisted AFA catcher/processor must comply with the catch weighing and observer sampling station requirements set out in paragraph (a) of this section at all times the vessel is engaged in directed fishing for pollock in the BSAI.

(c) *What are the requirements for AFA inshore processors?*—(1) *Catch weighing.* All groundfish landed by AFA catcher vessels engaged in directed fishing for
