Note: See Appendix B for a description of state-specific reporting anomalies. This information represents financial data for public independent and dependent school systems. It includes state payments made on behalf of public school systems and excludes financial transactions of public nonschool entities. Expenditure for adult education, community services, and other nonelementary-secondary programs are included under "Current spending" and "Other current spending" but are excluded from these categories in the per pupil data displayed in Table 14. Expenditure for support services are not shown by size-group because support service expenditure in many school districts in California cannot be isolated by function.

<sup>1</sup>Enrollments reflect fall 1998 memberships reported to the National Center for Education Statistics in the Public Elementary-Secondary Education Agency Universe Survey.

Note: See Appendix B for a description of state-specific reporting anomalies. Revenues from and expenditure to other school systems are included in this table. Expenditure for adult education, community services, and other nonelementary-secondary programs are included under total elementary-secondary expenditure, total current spending, and other current spending, but are excluded in the per pupil data displayed in Table 17. Refer to the introductory text for an explanation concerning tax revenue for dependent school systems. Data for specific state revenue programs are generally comparable for school systems in the same state but are not for school systems in other states. Due to enrollments under 15,000, Maine, Montana, North Dakota, Vermont, and Wyoming are not shown on the individual unit tables.

<sup>1</sup>Includes amounts not shown separately.

Note: See Appendix B for a description of state-specific reporting anomalies. Where state accounting practices permit, revenue from other school systems are included under "Other local governments". Some data appear under local sources for Hawaii's state-operated school system for consistency with data presented for all other school systems. Due to enrollments under 15,000, Maine, Montana, North Dakota, Vermont, and Wyoming are not shown on the individual unit tables.
