Note: This information represents financial data for public independent and dependent school systems. It includes State payments made on behalf of public school systems and excludes financial transactions of public non-school entities. See appendix B for a description of State-specific reporting anomalies. Expenditures for adult education, community services, and other non-elementary/secondary programs are included under "current spending" but are excluded from the per pupil data displayed in tables 8, 14, and 17.

\1 Duplicative interschool system transactions are excluded.

Note: See appendix B for a description of State-specific reporting anomalies. Expenditures to other school systems are excluded from this table. Expenditures for adult education, community services, and other non-elementary/secondary programs are included under total current spending and "other functions", but are excluded in the per pupil data displayed in tables 8 and 17. Users should exercise particular care in comparing employee benefits expenditure data. Appendix B identifies State payments on behalf of local education agencies which cause fluctuations in this category.

Note: See appendix B for a description of State-specific reporting anomalies. Expenditures to other school systems are excluded from this table. Expenditures for adult education, community services, and other non-elementary/secondary programs are also excluded. Users should exercise particular care in comparing employee benefits expenditure data. Appendix B identifies State payments on behalf of local education agencies which cause fluctuations in this category.

\1 Minor amounts of short-term indebtedness incurred by independent school systems are included in the long-term indebtedness figures and are not separately identifiable. Short-term indebtedness of dependent school systems in many cases cannot be distinguished from the total indebtedness of their parent government.

Note: See appendix B for a description of State-specific reporting anomalies. Revenues from and expenditures to other school systems are excluded to avoid double counting. Expenditures for adult education, community services, and other non-elementary/secondary programs are also excluded. Some data appear under local sources for Hawaii's State-operated school system for consistency with data presented for all other school systems. Users should exercise particular care in comparing employee benefits expenditure data. Appendix B identifies State payments on behalf of local education agencies which cause fluctuations in this category.

Note: This information represents financial data for public independent and dependent school systems. It includes State payments made on behalf of public school systems and excludes financial transactions of public non-school entities. Expenditures for adult education, community services, and other non-elementary/secondary programs are included under "current spending" and "other current spending" but are excluded from these categories in the per pupil data displayed in table 14.

Note: See appendix B for a description of State-specific reporting anomalies. Revenues from and expenditures to other school systems are included in this table. Expenditures for adult education, community services, and other non-elementary/secondary programs are included under total general expenditure, total current spending, and other current spending, but are excluded in the per pupil data displayed in table 17. Users should exercise particular care in comparing State revenue and employee benefits expenditure data. Appendix B identifies State payments on behalf of local education agencies which cause fluctuations in these categories. Data for specific State revenue programs are generally comparable for school systems in the same State but are not for school systems in other States. Due to enrollments under 15,000, Maine, Montana, North Dakota, Vermont, and Wyoming are not shown on the individual unit tables.

† Enrollments reflect fall 1994 memberships reported to the National Center for Education Statistics in the Public Elementary-Secondary Education Agency Universe Survey.

Note: See appendix B for a description of State-specific reporting anomalies. Where State accounting practices permit, revenues from other school systems are included under "other local governments". Some data appear under local sources for Hawaii's State-operated school system for consistency with data presented for all other school systems. Users should exercise particular care in comparing State revenue data. Appendix B identifies State payments on behalf of local education agencies which cause fluctuations in this category. Due to enrollments under 15,000, Maine, Montana, North Dakota, Vermont, and Wyoming are not shown on the individual unit tables.

Note: See appendix B for a description of State-specific reporting anomalies. Expenditures to other school systems are excluded in this table. Expenditures for adult education, community services, and other non-elementary/secondary programs are also excluded. Users should exercise particular care in comparing employee benefits expenditure data. Appendix B identifies State payments on behalf of local education agencies which cause fluctuations in this category. Due to enrollments under 15,000, Maine, Montana, North Dakota, Vermont, and Wyoming are not shown on the individual unit tables.

¹ Enrollments reflect fall 1994 memberships reported to the National Center for Education Statistics in the Public Elementary-Secondary Education Agency Universe Survey.
