SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, *e.g.* new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

DEPARTMENT OF ENERGY**National Nuclear Security Administration****Notice of Intent to Prepare a Site-Wide Environmental Impact Statement for the Y-12 National Security Complex**

AGENCY: National Nuclear Security Administration, Department of Energy.
ACTION: Notice of Intent (NOI).

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality's (CEQ) and the U.S. Department of Energy's (DOE) regulations implementing NEPA (40 CFR Parts 1500-1508 and 10 CFR Part 1021, respectively), the National Nuclear Security Administration (NNSA), an agency within the DOE, announces its intent to prepare a Site-Wide Environmental Impact Statement (SWEIS) for the Y-12 National Security Complex (Y-12) located at the junction of Bear Creek Road and Scarborough Road in Anderson County, Tennessee, near the city of Oak Ridge, Tennessee. NNSA has determined that one or more of the proposals to be evaluated would be a major federal action that could significantly affect the quality of the human environment; therefore, in accordance with the DOE regulations implementing NEPA, preparation of a new SWEIS is appropriate.

The new SWEIS will evaluate new proposals as well as update the analyses presented in the original SWEIS (DOE/EIS-0309) issued in November 2001 (66

FR 56663, November 9, 2001). In its 2002 Record of Decision (ROD) (67 FR 11296, March 13, 2002), DOE announced its decision to continue operations at Y-12 and to construct and operate two new facilities: (1) The Highly Enriched Uranium Materials Facility (HEUMF) and (2) the Special Materials Complex (SMC). The HEUMF is currently under construction. The SMC was subsequently cancelled due to changing mission requirements and replaced by a smaller facility that pertains to purification only (*Supplement Analysis for Purification Facility, Site-Wide Environmental Impact Statement for the Y-12 National Security Complex*, DOE/EIS-0309/SA-1, August 2002), and the installation of two new pieces of equipment to allow reuse of parts rather than construction of a facility to manufacture new parts. The No Action Alternative for the new SWEIS is the continued implementation of the 2002 ROD, as modified by actions analyzed in subsequent NEPA reviews. Three action alternatives are proposed for consideration in the new SWEIS in addition to the No Action Alternative. Each alternative includes the No Action Alternative as a baseline. The three alternatives differ in that one includes a new fully modernized manufacturing facility optimized for safety, security and efficiency; another consists of upgrading the existing facilities to attain the highest level of safety, security and efficiency possible without construction of new facilities; and the third consists of operating the current facilities until they are no longer viable followed by deactivation of those facilities and cessation of the associated operations.

DATES: NNSA invites comments on the scope of the SWEIS. The public scoping period starts with the publication of this NOI in the **Federal Register** and will continue through January 9, 2006. NNSA will consider all comments received or postmarked through this date in defining the scope of the SWEIS. Scoping comments received after this date will be considered to the extent practicable. NNSA will hold public scoping meetings at 475 Oak Ridge Turnpike, Oak Ridge, Tennessee, in the U.S. Department of Energy Information Center on December 15, 2005, from 11 a.m. to 2 p.m. and 6 p.m. to 9 p.m. The public scoping meetings will provide the public with an opportunity to present comments, ask questions, and discuss issues with NNSA officials regarding the SWEIS. The NNSA has invited the Tennessee Department of Environment and Conservation to participate as a cooperating agency in the preparation of the SWEIS. By this
