

Department initiate or accelerate programs to process and repackage such materials so that they could be safely stored. The Secretary of Energy accepted Recommendation 94-1 in full, and a satisfactory Implementation Plan was issued in February 1995 and accepted by the Board.

This Public Meeting is for the purpose of examining progress on activities to meet the objectives of Recommendation 94-1, and related integration of activities among Department of Energy sites. Department of Energy personnel have been requested to review the status of past due milestones affecting programs to process uranium and plutonium into stable storage forms, package plutonium for interim storage, stabilize spent fuel, and maintain the facilities needed to perform these activities. The major programs under Recommendation 94-1 are at the Savannah River Site, the Hanford Site, the Rocky Flats Environmental Technology Site, and the Los Alamos National Laboratory, although most other defense nuclear sites are affected to some degree.

The Defense Nuclear Facilities Safety Board reserves its right to further schedule and otherwise regulate the course of this meeting, to recess, reconvene, postpone or adjourn the meeting, and otherwise exercise its authority under the Atomic Energy Act of 1954, as amended.

Dated: April 9, 1998.

John T. Conway,
Chairman.
