NOTES

ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Belgium	January 2008 to September 2008
---------	--------------------------------

COUNTRY NOTES

Australia	Previous to February 2007, export data are estimated by the IEA on the basis of OECD imports of natural gas from Australia. Post February 2007, export data are estimated by the administration, based on annual (July to June) and quarterly data.
France	Beginning with January 2005 data, exports of natural gas include a portion of gas in transit.
Iceland	There is no natural gas data for Iceland, as there is neither production nor consumption.
Mexico	Due to reporting issues, beginning with February 2008 data, a portion of Natural Gas exports have been estimated by the IEA. Data for the imports of Natural gas do not include LNG.
Netherlands	Beginning with January 2005 data, natural gas trade information is published by country of physical location prior to or after crossing Dutch borders. Revisions are pending.
