Index Map for 2 Paradox-San Juan Panels

2001 Reserve Summary for All Paradox-San Juan Basin Fields			
Basin	Number of Fields	Total Liquid Reserves (MMbbl)	Total Gas Reserves (MMcf)
Paradox-San Juan	250	174,193	20,653,622
			3,816,464

2001 Gas Reserve Class

- No 2001 gas reserves
- 0.1 - 10 MMCF
- 10.1 - 100 MMCF
- 100.1 - 1,000 MMCF
- 1,000.1 - 10,000 MMCF
- 10,000.1 - 100,000 MMCF
- > 100,000 MMCF
- Basin Outline
- Cities/Towns
- Limited Access Highway
- Other Highway

The mapped oil and gas field boundary outlines were created by the Reserves and Production Division, Office of Oil and Gas, Energy Information Administration pursuant to studies required by Section 106(a) of the Energy Policy and Conservation Act Amendments of 2000 (P.L. 106-469). The boundaries are not informed by subsurface structural information. The data and methods used in their creation are detailed in a report, "Scientific Inventory of Onshore Federal Lands' Oil and Gas Reserves and Reserves and the Extent and Nature of Reserves to Their Development," prepared by the US Departments of Interior, Agriculture and Energy.

Unnamed fields and fields generally named "wildcat" were renamed to a combination of their basin and state of occurrence, e.g., UT (Utah-Piceance Basin and Utah).

Map created June 2005; projection is UTM-13, NAD-27.
