RE: Notification of Nutritional Support Statements

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Myricetin a dietary supplement. Source Naturals® is the manufacturer of Myricetin.

Statements being made in the labeling of Myricetin

- (1) Myricetin is a naturally occurring flavonoid that is found in berries, fruits, vegetables, herbs and red wine.
- (2) Many *in vitro* studies have demonstrated the antioxidant properties of myricetin.
- (3) *In vitro* research also suggests that myricetin in high concentrations is capable of modifying LDL cholesterol in a manner that enhances its uptake by white blood cells.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals, Inc.
