

Dear Ms Adler:

This contains Mission Possible International submission to FDA Docket# 02P-0317. It is the petition to recall drug aspartame which is a neurotoxin.

We are faxing you because FDAdocket@oc.fda.gov does not accept email. Please add this for above docket number - deadline January 12, 2003.

Regards

Betty Martini, Mission Possible International

Petition to Ban Aspartame Products

We the undersigned believe that aspartame is a toxin and that all aspartame laced products should be banned. We are not at all convinced that the scientific data that is offered up in defense of aspartame safety is legitimate. We believe that it is influenced by the political and business connections of aspartame manufacturers.

Petition to Reclassify Aspartame From "Safe Food Additive" to "Drug", Recall All Foods, Meds, Supplements, etc. Containing Aspartame, Then BAN ASPARTAME.

We the undersigned believe that Aspartame IS a Neurotoxin and a Carcinogen, and in light of the Congressional Record, we feel it has been shown that Aspartame IS a Teratogen (causes birth defects). We feel that it should be reclassified from "safe food additive" to "drug" (we know the drug application was withdrawn). We feel Aspartame and All Products containing Aspartame for human consumption should be recalled...then Aspartame SHOULD BE BANNED. We believe Aspartame has remained on the market possibly ONLY through Political and Business ties. We strongly believe the Bressler Report and the Barcelona Study from Spain both prove that we have the right to demand the Recall and Ban of Aspartame.

Petition to Reclassify Aspartame From "Safe Food Additive" to "Drug", Recall All Foods, Meds, Supplements, etc. Containing Aspartame, Then BAN ASPARTAME.

We the undersigned believe that Aspartame IS a Neurotoxin and a Carcinogen, and in light of the Congressional Record, we feel it has been shown that Aspartame IS a Teratogen (causes birth defects). We feel that it should be reclassified from "safe food additive" to "drug" (we know the drug application was withdrawn). We feel Aspartame and All Products containing Aspartame for human consumption should be recalled...then Aspartame SHOULD BE BANNED. We believe Aspartame has remained on the market possibly ONLY through Political and Business ties. We strongly believe the Bressler Report and the Barcelona Study from Spain both prove that we have the right to demand the Recall and Ban of Aspartame.

Petition to Ban or Label Aspartame Products

We the undersigned believe that aspartame is a toxin and that its use should be banned, or at least warning labels about its toxicity should be placed on all aspartame laced products. We are not at all convinced that the scientific data that is offered up in defense of aspartame safety is legitimate. We believe that it is influenced by the political and business connections of aspartame manufacturers.

Return to Betty Martini, 9270 River Club Parkway, Duluth, Georgia 30097 (we need 1 million signatures)

This petition is to recall the deadly chemical poison, aspartame, marketed as NutraSweet, Equal, Spoonful and no telling what since the patent expired. Aspartame destroys the central nervous system, the brain and the optic nerve and ravages every organ in the body. A recent study on aspartame, Trocho C. Pardo R., et al. titled Formaldehyde derived from dietary aspartame binds to tissue components in vivo, Life Sciences 63:337-349, 1998, shows that the formaldehyde (the wood alcohol in aspartame converts to formaldehyde) accumulates in the cells and damages DNA with 50% toxicity in the liver, and a little less in the kidneys, adipose tissues, brain and retina. Dr. James Bowen wrote the FDA many years ago and told them aspartame was mass poisoning of the American public and more than 70 countries of the world. Aspartame is Do-It-Yourself Embalming! Dr. Bowen suffers from Lou Gehrigs from aspartame.

Also, this petition is also to prevent the approval of Neotame, an even more potent aspartame that Monsanto is asking the FDA to approve. A petition is also on the Internet at <http://www.e-thepeople.com/petition.cfm?PETID=109862> The FDA list 92 documented symptoms triggered by aspartame from four types of seizures to coma and Death!
