Petition to Reclassify Aspartame From "Safe Food Additive" to "Drug", Recall All Foods, Meds, Supplements, etc. Containing Aspartame, Then BAN ASPARTAME.

We the undersigned believe that Aspartame IS a Neurotoxin and a Carcinogen, and in light of the Congressional Record, we feel it has been shown that Aspartame IS a Teratogen (causes birth defects). We feel that it should be reclassified from "safe food additive" to "drug" (we know the drug application was withdrawn). We feel Aspartame and All Products containing Aspartame for human consumption should be recalled...then Aspartame SHOULD BE BANNED. We believe Aspartame has remained on the market possibly ONLY through Political and Business ties. We strongly believe the Bressier Report and the Barcelona Study from Spain both prove that we have the right to demand the Recall and Ban of Aspartame.

Petition to Ban or Label Aspartame Products

We the undersigned believe that aspartame is a toxin and that its use should be banned, or at least warning labels about its toxicity should be placed on all aspartame laced products. We are not at all convinced that the scientific data that is offered up in defense of aspartame safety is legitimate. We believe that it is influenced by the political and business connections of aspartame manufacturers.

I've blown it up Bob, but I'm not sure:

Submit written objections to the Dockets Management Branch, HFA-305) (Bob could be a 6), Food and Drug Administration, 12420 Parklawn Dr, run (I think) 1-23, Rockville, Maryland 20357

For further information contact:
 Blumbell Anderson, Center for Food Safety and Applied Nutrition (HPS-207)
 Food and Drug Administration, 300 C St. SW, Washington, D.C. 30204 203
 418-3108 (could also be 3105)

Bob this is a fax of a fax

Okay, can you write a petition. If you can't sign it we can get Dr. Roberts to sign it. I just need to know if this is correct. Have to call tomorrow. Everybody closed now.

Love,
 Betty

Petition to Ban Aspartame Products

We the undersigned believe that aspartame is a toxin and that all aspartame laced products should be banned. We are not at all convinced that the scientific data that is offered up in defense of aspartame safety is legitimate. We believe that it is influenced by the political and business connections of aspartame manufacturers.
