

Acknowledgements

The realization of this project would not be possible without the assistance of the Pan American Health Organization, World Health Organisation and the Centres for Disease Control and Prevention.

Special thanks to the Ministry of Education, Saint Lucia for allowing the students to participate in the survey and the staff of the Bureau of Health Education for willingly assisting in the data collection process.

Finally, I wish to thank the Research Co-ordinator Mrs. Elvina Lawrence, for co-ordinating the data collection process.
