[Docket No. CP98-637-000]

Columbia Gas Transmission Corporation; Notice of Application

July 8, 1998.

Take notice that on June 26, 1998, Columbia Gas Transmission Corporation (Columbia), 12801 Fair Lakes Parkway, Fairfax, Virginia 22030-0146 filed an application pursuant to Sections 7(b) and 7(c) of the Natural Gas Act and Part 157 of the Commission's Regulations for authorization permitting and approving the abandonment of pipeline facilities and a certificate of public convenience and necessity to construct and operate replacement pipeline facilities, an increase in deliverability from an existing storage field, and reacquisition of certain pipeline capacity storage wells, as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Columbia requests authorization for the following:

- Abandonment of 6.9 miles of 12-inch pipeline and appurtenant facilities on Line VM-108, in Sussex County, Virginia.

- Construction and operation of 6.9 miles of 20-inch pipeline and appurtenant facilities in Sussex County, Virginia (replacing the 12-inch pipeline to be abandoned).

- Increase the deliverability of the Gladly Storage Field in Randolph and Pocahontas Counties, West Virginia by enhancing two existing wells.

- Reacquire existing pipeline capacity on Columbia's Solo Pipeline between the Emoria and Petersburg Compressor Stations from Transco Energy Marketing Company.

Columbia states that the proposed replacement is primarily due to age and condition. In addition, replacement of 12-inch with 20-inch pipeline will permit Columbia to fulfill a request by Virginia Natural Gas Company (VNG) for an additional 14,625 Dth per day in Firm Storage Service (FSS) and associated Firm Storage Transportation (SST) to its Norfolk, Virginia delivery point. The estimated cost of the proposed project is \$7,193,200. The incremental costs associated with additional service to VNG are estimated to be \$2,706,200.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 29, 1998, file with the Federal Energy Regulatory Commission, 888 First
