

## § 256.18

be done under the Housing Improvement Program. The representative must ensure that flood, National Environmental Protection Act (NEPA) and earthquake requirements are met.

(b) Second, based on the list of repairs or renovation to be done, the representative must estimate the total cost of repairs or renovation to your dwelling. Cost estimates must be based on locally available services and product costs, or other regional-based, industry-recognized cost data, such as that provided by the MEANs or MARSHALL SWIFT. If the dwelling is located in Alaska, documented, reasonable, substantiated freight costs, in accordance with Federal Property Management Regulations (FPMR 101-40), not to exceed 100 percent of the cost of materials, can be added to the cost of the project.

(c) Third, the representative must determine which Housing Improvement Program category the improvements to your dwelling meet, based on the estimated cost of repairs or renovation. If the estimated cost to repair your dwelling is more than \$35,000, the representative must approve your dwelling for replacement or refer you to another source for housing. The other source does not have to be for a replacement dwelling; it may be for government-subsidized rental units or other sources for standard housing.

(d) Fourth, the representative must develop a detailed, written report, also called "bid specifications" that identifies what and how the repairs, renovation, or construction work is to be accomplished at the dwelling.

(1) When the work includes new construction, the "bid specifications" will be supplemented with a set of construction plans. The plans must not exceed the occupancy and square footage criteria identified in § 256.11. The plans must be sufficiently detailed to provide complete instructions to the builder for the purpose of construction.

(2) "Bid Specifications" are also used to inform potential bidders of what work is to be done.

[63 FR 10134, Mar. 2, 1998, as amended at 67 FR 77922, Dec. 20, 2002]

## 25 CFR Ch. I (4-1-06 Edition)

### § 256.18 How will I be advised of what work is to be done?

You will receive written notice from the servicing housing office of what work is being scheduled under the Housing Improvement Program. You will be requested to concur with the scheduled work by signing a copy of the notice and returning it to the servicing housing office. No work will be started until the signed copy is returned to the servicing housing office.

### § 256.19 Who performs the improvements, repairs, or replacement of my dwelling?

Independent or tribal repair or construction trades persons, home building contractors, or construction companies will perform the repairs, renovation, or replacement of your dwelling.

[63 FR 10134, Mar. 2, 1998, as amended at 67 FR 77922, Dec. 20, 2002]

### § 256.20 How are these repairs or construction trades persons, home building contractors, or construction companies selected and paid?

The servicing housing office must follow Federal procurement or other Bureau-approved tribal procurement policy. Generally, your servicing housing office develops a "bid specification" or statement of work, which identifies the work to be performed. The appropriate contracting office uses the "bid specification" to provide information and invite bids on the project to interested parties. The contracting office selects the winning bidder after technical review of the bids by and written recommendation from the servicing housing office, and after determination that the bidder is qualified and capable of completing the project as advertised.

(a) Payments to the winning bidder are negotiated in the contract and based on specified delivery of services.

(1) Partial payments will not exceed 80 percent of the value of the completed work.

(2) Final payment will be made after final inspection and after all provisions of the contract have been met, including punch list items.
