

Dockets #'s OOD 1598 and OON-1396

Dear Commissioner,

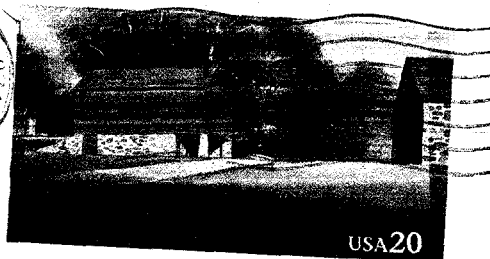

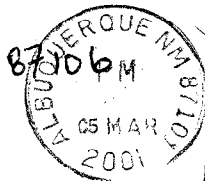

Genetically modified crops, and the inevitable
engineered animals, are an unacceptable
experiment. If you ~~and your~~ ^{agribusiness} ~~agribusiness~~ ^{associates} ~~in~~ ⁱⁿ
agribusiness insist on creating these organisms
we insist that you take an extremely
cautious and rigorous approach before introducing
them into our ecosystems.

I ~~do~~ not want to eat these products! Label!
-Johnny Wilcox
