

To
FDA Commissioner Jane Henney
re: dockets OON-1316 and OOD-1598

3/3/2001

Dear Commissioner Henney,

I am very concerned about the safety of our food supply in the face of unchecked genetic tampering and genetic engineering.

I am outraged that the FDA continues to ignore the safety concerns of consumers, doctors and scientists, in favor of protecting the economic interests of biotech companies.

I demand that the FDA change its policy to require labeling and pre-marketing safety testing of all genetically engineered food. Our future and present health depend on it!

Sincerely,
Alexandra Januegon
