RE: Notification of Nutritional Support Statements

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of **Creatine**, a dietary supplement. Horizon[®] is the manufacturer of **Creatine**.

Statements being made in the labeling of Creatine:

(1) Creatine monohydrate is converted to creatine phosphate (CrP) in muscle tissue. CrP provides a critically important store of energy which helps to power short bursts of intense muscular activity, as in sprinting or weightlifting. CrP may be present in muscle tissue at levels approximately five times higher than the other major energy storehouse molecule, ATP.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Horizon possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
