

2-3-01

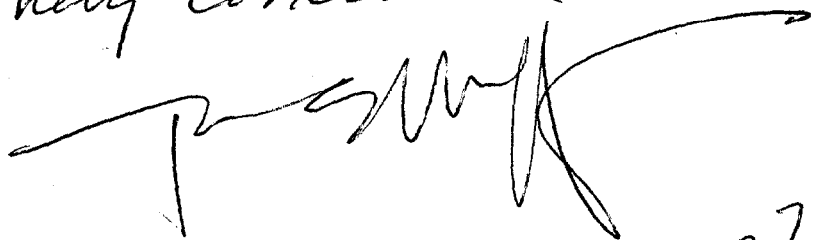

Dear Sir;

1530 '02 FEB 12 P2:22

I wish to express my sincere concern
re: GE foods. The FDA MUST
protect the consumer. All GE foods
should be required to undergo
pre-market safety testing - and an
Environmental Review is needed to
protect the environment.

All GE foods should be clearly
labeled. If a massive toxic
reaction were one day exposed - who
would face liability? This could be
a legal nightmare for a future generation.

Truely Concerned
