

Docket # OOD-1598, OON-1396

Feb. 5, 2001

Dear FDA Commissioner -

I do not understand why you think it is all right for me and my family to eat genetically engineered foods that Europe, Japan and other nations will not allow into their countries. Please protect the public health by taking all GMO products off the market until they have been proven safe & please require labeling of any that are on the market!!!

Sincerely, Laura Horochowski, 12805 Bryce Ct NE, Albuquerque NM 87112

OON-1396
