

2/3/01 Comments on Docket #'s OOD-1598 and OON-1376
I am very concerned about genetically
engineered foods - I wish to avoid
these foods for myself and those I feed -
Please, please, please, I ^{urge} you to
require both pre-market safety testing
and labeling of these new foods -
And thank you for your efforts
in their direction.

Franca Savester
