

Docket #'s OON-1396 + OOD-1598

Dear Commissioner,

As a consumer I am concerned about the quality of new  
fertilizers and its impact on human and environmental health. Therefore I  
urge you to rethink your position on CIM funds to require both  
pre-market safety testing, and labeling of those new fertilizers  
— So that I may feel confident of my freedom of  
choice.

Thank you,
