Dear Sir/Madam:

I am literally begging the U.S.
Food and Drug Administration to
grant petition 98P-0151/CPT
to prohibit the slaughter of
downed animals.

It is not only cruel but
unhealthy to allow sick animals
to become edible food for
human beings. There aren't
that many sick animals so
that it isn't even a money loss.

Thank you for your consideration

Yours truly,

(Mrs) Beatrice Munnering
