TRANSMITTAL

to: Susan Thompson
fax #:
re: Trans Fat Comment, Docket 94P-0036 , CR 2163
date: August 21, 2000
pages: 1, including cover sheet.

I just returned from vacation and found your fax regarding our trans fatty acid comment. We did mean to recommend that the criterion for "trans fat free" be consistent with the saturated fat threshold for cholesterol claims, i.e., claims of trans fat free would be permitted if the product has ≤ 2 g saturated fat. Please feel free to call if you have any further questions.

FROM: Susan Thompson re: C 2163

Thank you so much for your comment
on trans fatty acids (Docket 94P-0036)

You're the only ones to recommend that
the sat criterion for "trans fat free" be $< 2g$.

Did you mean for it to be consistent w/ the
sat. threshold for cholesterol claims, which is $\leq 2g$ sat's;

Thanks for checking & taking so much time
on your comment
Suech
