FDA Commissioner
Docket # OON-1396/OOD-1598
FDA Dockets Management Branch (HEA-305)
Food and Drug Administration
5630 Fishers Lane, Room 1061
Rockville, MD 20852

Dear FDA Commissioner:

I am writing to express my opposition to the FDA's new proposed rule and guidance to genetically engineered (GE) foods. The agency's voluntary labeling and notification proposals are totally inadequate to protect human health, the environment, and my right to know. I fully support the following:

- All GE foods and food ingredients should be labeled so that I am informed and have a choice.
- GE foods should not be assumed to be safe and should be subject to mandatory pre-market safety testing.
- There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

Thank you for everything you do to protect the health of the American people. We hope we can count on you to help with this urgent problem.

Sincerely yours,

Ellen Slater
