

Dear Commissioner, 2622 '01 MAR -5 10:47

I am concerned about what is the quality of my food. And what could happen to the human and environmental health, specially because of my allergic condition this could be putting in danger my life. Therefore I really will appreciate if you rethink your position on GM foods to require both pre-market safety testing, and labeling of these new foods - so that I may feel confident using my Freedom of choice!

Sincerely

Edna De Jesus Mir
