

DOCKET # 00D-1598 + 00N-1396

Dear FDA Commissioner,

I feel that my right to know what is in my food should outweigh the economic interests of big food corporations. And, since ^{72.1} it is the FDA's job to protect the American consumer, at the very least you should require independent ~~study~~ safety testing of all genetically engineered products & clear labeling of any GMO food on the market.

Sean Ostrowski
