Docket No. 00N-1396 & Docket No. 00D-1598  
FDA Commissioner, Dockets Management Branch (HFA-305)  
Food and Drug Administration  
5630 Fishers Lane, Room 1061  
Rockville, MD. 20852

0894 '01 MAR -6 11:18

Dear Commissioner,

Frankly I cannot believe we are even talking about the Genetically Engineered (GE) Food issue after the various reports that have come to light recently. Do you feed your family this stuff? Do you even know? Based on recent reporting it seems doubtful, unless you only eat what YOU grow YOURSELF, which also seems doubtful.

Current FDA policy is treating us all like Guinie Pigs, and I don't like it one bit. I'm mad as hell about it and can't understand why you ar'nt too.

I urge you to use your powers to look past those who chose this unknowing future and see the truth, if you can.

The FDA MUST require mandatory pre-market testing of this stuff. Not to do so is a slap and quite possibly a death sentence to many. Can't you see?

The FDA MUST require mandatory pre-market environmental review to assure no harm to our already fading eco-systems worldwide.

The FDA MUST require mandatory labeling of GE foods. We deserve to know what's on our plate.

The FDA MUST stop this madness. Are any of you not concerned for your own children if not mine?

The so-called "NOTIFICATION" policy insults us all. Enough already!!!!

Sincerely,

  
Thomas Manthe
