Re: Docket No 00N-1396  
Docket No 00D-1598

I am writing to demand  
~~safely~~ safety testing and labeling  
of all GE containing foods  
on the market. I feel I have  
the right to know and choose  
what I eat. It is your duty  
to protect the public health  
and there remain significant  
questions about human  
health effects of GE foods

Sincerely,  
Judith Lorell
