Dear FDA - Re G.E. Foods

I want to state my ideas  
on FDA's rules on G.E. foods:

The agency's voluntary labeling  
are not fair to the consumer.  
I have a right to be told by the  
producer ~~to be told~~ what is in  
their product!

- ① All G.E. foods + ingredients should  
be labeled so I know what is in  
the product.
- ② G.E. foods should not be assumed to  
be safe + should be required to be  
tested before being sold.
- ③ There should be a moratorium on G.E.  
foods until, by long-term testing shown  
to be safe for people + the environment!

Sincerely, — Shirley Miller
