Gentlemen and ladies,

This letter strongly calls upon FDA to  
require testing and labeling of Genetically  
Engineered Food.

- \* require mandatory pre-market testing
- \* require mandatory pre-market  
environmental review

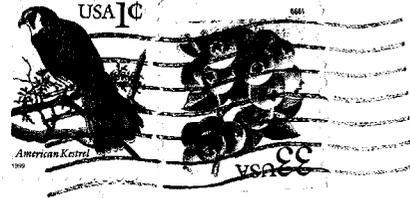

\* MANDATORY LABELING OF GE FOODS!

I want to decide NOT to eat such  
food. I do not trust the words of any  
corporation producing GE foods since  
they are driven by profit only.

Sincerely,

Sue Peters
