

Docket # 000-1598
CON - 1396

Dear Commissioner,

I understand the pressure to serve the interests of corporations - much of public & media attention tends to focus on the ²²⁷⁶health ⁰¹of ^{MAR}the ^{111:45}economy. However I do not believe that this is more important than the health of our nation's populace.

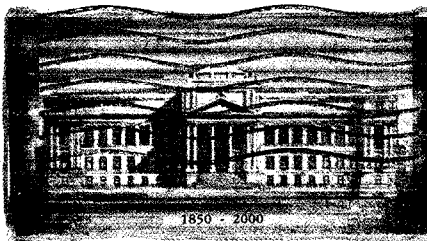

Please will you support measures to test and label genetically-engineered foods. ~~Labeling~~ Labelling should be required simply for the sake of ~~the~~ the public's right to know what is in our food (ala ingredients + ~~but not~~ ^{but not} ~~to~~ ^{to} ~~food~~ ^{food})

Sincerely, Alan Zibel
