Dear Dr. Henney,
I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-12I1\CP1

All GE foods should be labeled so I am informed and have a choice.

GE foods should not be assumed tope (generally recognized as safe' and should have mandatory pre-market safety teating)

There should be a moratorium on GB, foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments:) Mere are soon 1061

Rockville MD 20852

**Commissioner Jane Henney
