Dear Ms. Henney:

I'm appalled that you've  
chosen to stand by and  
even support genetic  
engineering of the American  
food supply. Your aim,  
of course, is twofold:

- a) to make certain  
corporations richer,  
by
- b) driving the organic  
farmers out of business.

How in the world, as a  
woman, could your  
conscience let you do this??

Sincerely,  
Shirley Swede
