Consumer Right to Know and Safety First Campaign *MODIFIED*
 Petition to Secure Mandatory Labeling of all Genetically Engineered Foods
 Petition to Secure the Mandatory Labeling of all Genetically Engineered Foods
 Submitted to the President of the United States, Congress, USDA and FDA

New substances are being introduced into our foods via a technology called genetic engineering. A growing number of scientists and physicians are voicing concern over possible health and environmental risks from these foods. Genetically engineered foods are currently being produced and sold in the U.S. without proper labeling or safety testing. This petition upholds the right of consumers to make informed choices about the foods they eat and feed their families.

We, the undersigned, as citizens of the United States, strongly urge the passage of legislation and policies to mandate the clear and accurate labeling of all foods derived from, processed with, containing or consisting of genetically engineered organisms including related agricultural applications.
