

Mar. 9, 01

Dear F D A,

5543 '01 MAR 19 P4:20

I am opposed to the new volunteer labeling and notification proposals for genetically engineered foods. They are not adequate for protecting human + environmental health.

I support:

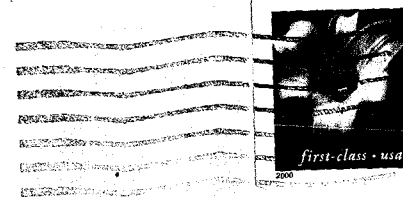

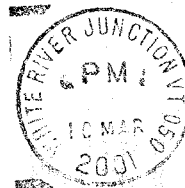

- labeling for all foods containing GE ingredients.
- mandatory pre-market safety testing for GE foods
- a moratorium on GE foods until long-term studies prove them safe for human consumption and the environment.

Sincerely,
Sally Burrell
