RE: # OOD-1598 / # OON-1396

My children and I have numerous allergies to foods and additives and our bodies react with severe reactions which have landed one or the other of us in the local hospital emergency room because of an ingredient hidden in a prepared food we had eaten. Please don't put our families health at risk -- require food producers to label products containing GMO & ~~GPA~~ items. Please protect families like ours.

JAIME, RUTH & THOMAS
