

Docket # 00D-1598 OON-1396 3/09/01

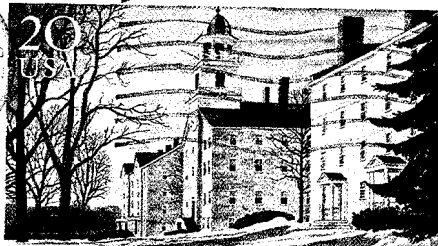

As a citizen of the "Free" United States of America, I resent the fact that you do not support me by:

1. Labeling of Genetically enhanced foods
2. long/short term testing of Genetically enhanced foods.
3. The fact that organically grown products are so expensive. ⁴²⁰¹ They should be subsidized.

Thank-you Brian Henry Albuquerque, NM
