Dear Commissioner:

I'd like to say that I can't believe that you are proposing NO testing and NO labelling of foods containing Genetically Modified Organisms. Unfortunately, however, I do believe it. You and your organization continue to amaze me in your steady downward slide in ethics.

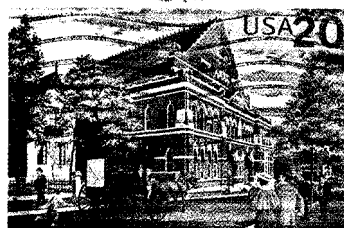

BUT I am willing to be convinced otherwise. Prove to me that you actually care about U.S. consumers by requiring mandatory testing and labelling of genetically-modified foods. I know you can do this. Thank you,
Albuquerque, NM Jennifer Tobin
