To the FDA Commissioner:

Remember how saccharin was touted as such a great "low-cal" breakthrough? Sad that they found out how it can cause cancer, eh?

Oh, and (aspartame) nutrasweet which contains phenylalanine, ~~caused~~ ^{caused} serious problems for people ~~with that~~ ^{who} react badly to it. ^{due to} deficiency.

They were not labeled at such ^{NO 2485} ~~NO 2485~~ TESTING? ^{NO 2485}
