Dear Dr. Jane Henney,

I am writing this letter in reference to docket consumer petition 99p-4613, urgin the FDA to reconsider and revoke your approval of the use of rBGH. Many consumers are concerned about the use of this hormone that is dangerous to both cows and humans. Many consumers are unaware of the risks and hazards associated with its use. While other countries (Canada and countries in Europe) have outlawed the use of rBGH, its continued use and acceptance in the U.S. questions the validity and integrity of the federal regulatory agencies such as the FDA. Please respond ASAP.

Sincerely,

Jim Cervelli
