## **Layers of Protection for America**

### **Protections for Targeted Areas and Special Events**

*(Examples)*

- More security patrols
- Explosive detection devices and dog teams
- More security measures for buses and subways
- Additional protections for Madison Square Garden and other large, public places

### **New Summer and Fall Security Measures**

*(Examples)*

- Thousands of handheld radiological detectors;
- Beefed up security at chemical plants – including buffer zones and web-enabled cameras;
- Maritime patrols to trap terrorists and protect ports

### **Permanent Protections Post-9/11**

*(Examples)*

- Hardened cockpit doors, thousands of federal air marshals, Federal Flight Deck Officers and a professionally trained screeners
- 24-7 connectivity with first responders, federal state and local officials in all states and major cities
- 100% screening of high-risk cargo, additional port surveillance cameras, background checks on port workers, and new technologies on cargo containers such as “Smart Boxes”
- Biowatch sensors, hazmat technicians
- Critical infrastructure cataloged into national database
