

will meet in closed session on August 26–28, 1997 at Strategic Analysis, Inc., 4001 N. Fairfax Drive, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense through the Under Secretary of Defense for Acquisition and Technology on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting the Task Force will address the threat to U.S. interests posed by the growth of underground facilities in unfriendly nations. The Task Force should investigate technologies and techniques to meet the international security and military strategy challenges posed by these facilities.

In accordance with Section 10(d) of the Federal Advisory Committee Act, P.L. No. 92–463, as amended (5 U.S.C. App. II, (1994)), it has been determined that this DSB Task Force meeting concerns matters listed in 5 U.S.C. § 552b(c)(1) (1994), and that accordingly this meeting will be closed to the public.

Dated: July 1, 1997.

Federal Energy Regulatory Commission

[Docket No. CP97–601–000]

Northern Natural Gas Company; Notice of Application for Abandonment

July 1, 1997.

Take notice that on June 23, 1997, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, Nebraska 68124, filed in Docket No. CP97–601–000, an application pursuant to Section 7(b) of the Natural Gas Act (NGA) and Part 157 of the Commission's Regulations for permission and approval to abandon a total of fourteen compressor units and stations, with appurtenances, located in Kansas, Oklahoma, Texas, and Michigan, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Northern states that the compressor units and stations proposed to be abandoned in the instant application, identified in Exhibit T, are not being utilized due to changes in operating conditions which have eliminated the need for these facilities. Northern asserts that the abandonment of these facilities will not result in the abandonment of service to any of Northern's existing shippers, nor will the proposed abandonment adversely affect capacity since the compression is no longer needed to meet current firm service obligations.

Northern proposes to abandon these units and stations in-place. However, Northern indicates that it may utilize the units or parts from these units in the future at other locations on its system as the need may arise or they might be salvaged. At the time these units are utilized, Northern says it will seek any required Commission authority in order to install and operate these compressor facilities at a new location.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 22, 1997, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211) and the
