SUPPLEMENTARY INFORMATION: The DON has prepared and filed with the EPA the DEIS for homeporting additional surface ships at Naval Station (NAVSTA) Mayport, Florida, in accordance with requirements of the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. sections 4321-4345) and its implementing regulations (40 CFR Parts 1500-1508). A Notice of Intent for this DEIS was published in the **Federal Register** on November 14, 2006 (FR14NO06-25). The DON is lead agency for the proposed action with the U.S. Army Corps of Engineers and U.S. Environmental Protection Agency serving as cooperating agencies.

The purpose of the proposed action is to ensure effective support of Fleet operational requirements through efficient use of waterfront and shore side facilities at NAVSTA Mayport. The Navy needs to utilize the available facilities at NAVSTA Mayport, both pierside and shoreside, in an effective and efficient manner, thereby minimizing new construction.

This DEIS reviews and assesses 12 action alternatives and the No Action alternative. The 12 action alternatives incorporate various types and numbers of ships including those types currently homeported at NAVSTA Mayport: Cruisers, destroyers, and frigates, as well as additional types of ships, including amphibious assault ships, amphibious transport dock ships, dock landing ships, and a nuclear powered aircraft carrier.

Depending on the action alternative, the proposed action may include dredging and disposal of dredged material, maintenance facilities improvements, utilities upgrades, wharf improvements, personnel support improvements, parking facilities and traffic improvements, or construction of nuclear propulsion plant maintenance facilities.

The EIS addresses any potential environmental impacts associated with: Earth resources, land use, water resources, air quality, noise, biological resources, cultural resources, traffic, socioeconomics, general services,

utilities, and environmental health and safety. The analyses include direct and indirect impacts, and account for cumulative impacts from other foreseen Federal activities.

The proposed action includes only required activities necessary to prepare and operate NAVSTA Mayport for the proposed homeporting and does not include actions at other Navy bases. Several alternatives could be implemented as early as 2009; others would not be fully implemented until 2014. A preferred alternative has not been selected or identified in the DEIS. The Navy seeks comments from the public or interested parties regarding the sufficiency of the DEIS and the choice of a preferred alternative.

The Navy conducted the scoping process to identify community concerns and local issues that should be addressed in the EIS. Federal, state, and local agencies and interested parties provided written comments to the Navy and identified specific issues or topics of environmental concern that should be addressed in the EIS. The Navy considered these comments in determining the scope of the EIS.

The Draft EIS has been distributed to various Federal, State, and local agencies, as well as other interested individuals and organizations. In addition, copies of the Draft EIS have been distributed to the following libraries for public review:

1. Beaches Library, 600 3rd Street, Neptune Beach, FL 32266;
